ADDRESS:
Flat No.402, Chandra Heights, Ramalayam Road, Bakkanna Palem, Visakhapatnam.

SKILLS

Technical & Software Development

- **Programming Languages:** C, HTML, TypeScript, java (Blue J)
- **Development Tools:** GitHub, antigravity (IDE), Figma
- **Productivity:** Microsoft Office Suite (Word, Excel, PowerPoint)

Clinical & Pharmaceutical Science

- **Core Pharmacy:** Pharmacology, Quality Assurance (QA)
- **Research & Development:** Herbal Formulations, Drug Standardization
- **Technical Writing:** Paper Presentation, Project Documentation

Professional & Soft Skills

- **Adaptive Learning**
- **Precision Communication**
- **Strategic Insight**
- **Solution Synthesis:** Analytical problem-solving with a focus on efficient project outcomes.

PROFILE

Health-Tech Innovator & B. Pharm Candidate "Dedicated "Fourth-year B. Pharm student at Avanthi Institute of Pharmaceutical Sciences, specializing in the intersection of clinical pharmacy and software engineering.
Experienced in developing AI-driven healthcare applications and automated emergency response systems. Proven technical excellence in competitive environments, evidenced by multiple first-place awards in regional technical expos and project presentations. Proficient in C, TypeScript, and Firebase, with a strong foundation in pharmacology and quality assurance."

EDUCATION

- **Bachelor of Pharmacy (B. Pharm)** | *2023 – Present* **Avanthi Institute of Pharmaceutical Sciences, Cherukupally, Vizianagaram district**. | Affiliated to JNTUGV
  - **Status:** 4 th Year Candidate.
- **Higher Secondary Education (Class XII)** | *2021 – 2023* **Sri Chaitanya Medical Academy** , Dwaraka Nagar , Visakhapatnam.
  - **Stream:** Biology, Physics, Chemistry (BiPC).
- **Secondary Education (Class VI to X - ICSE)** | *2017 – 2021*

St. Francis School , Madhurawada, Visakhapatnam.

Area of Interest

Clinical Informatics ,Pharmaceutical AI , Digital Health , Pharmacovigilance ,Health-Tech Innovation ,Drug Safety & Monitoring, Clinical Data Management ,Software Engineering ,Drug Development.

ACHIEVEMENTS & RECOGNITION

- Secured **1st Place – APOTHEKE 2k26 Hackathon** (out of 150+ participants)
- Winner – **Innovative-X 2k25 National Hackathon** (Pharmaceutical AI Innovation)
- Presented on **Antiretroviral Therapy (ART)** at APOTHEKE 2k25 (National Conference)
- Delivered E-Poster on **AI in Clinical Trials & Drug Development** at Andhra University
- Pitched startup idea: **Herbal Syrup Formulation**
- Conducted multiple scientific presentations in pharmacy-focused events
- Completed **ISRO Certification** in Space-based Geospatial Intelligence (IIRS Outreach)

INTERNSHIPS

Medical Writing Intern — Henry Harvin Education (YuvaIntern) | *Jul 2026 – Sep 2026* | *Remote*

- Certified intern; worked on scientific literature analysis, research synthesis, structured medical communication and clinical documentation compliance.

Virtual Intern, Pharmacovigilance — SkillDzire | *May 2026 – Jul 2026* | *Remote*

- Processed Individual Case Safety Reports (ICSRs), tracked adverse events and evaluated post-marketing surveillance metrics; studied ICH-GCP, signal detection and risk management.

Industrial Trainee (QC & QA) — Apitoria Pharma Pvt. Ltd. (Unit-IV, formerly Unit-XI of Aurobindo Pharma) | *May 2026 – Jun 2026* | *Pydibhimavaram, Srikakulam, AP* | *On-site*

- Gained hands-on exposure to QC analytical testing, material verification, QA documentation workflows and GxP compliance.

PROJECTS & ACHIEVEMENTS

- **DriveShield**
  - Developed a smart emergency alert system for post-vehicle collision response. Engineered automatic activation via airbag deployment with real-time GPS alerts. Enabled communication with nearby hospitals for faster emergency response. Built HTML-based interface to streamline victim-to-emergency services interaction
- **MediGuard AI (Lead Developer | Winner – APOTHEKE 2k26)**
  - Developed an AI-powered medical assistant for drug safety and patient awareness Implemented hybrid architecture combining local clinical database with real-time APIs. Built a robust TypeScript-based interface for drug intelligence and monitoring. Focused on reducing medication misuse and improving clinical accessibility
- **1st Place – Poster Presentation (School Level)** | *World Pharmacists Day*
  Won first place in the poster presentation held at school level as part of World Pharmacists Day celebrations.
- **Poster Presentation – "The Antibiotic After-Life"** | *Pharmacy Council of India* | *AP State Level WPD & NPW 2026* | *Nov 2026*
  Presented a narrative review poster on the environmental journey of antibiotic residues, antimicrobial selection pressure and the One Health approach to combating AMR, highlighting the pharmacist's role in rational drug use and safe medicine disposal.
- **Rank 15 of 126 – BTS Global Pharma Flair Awards 2026 (Review Articles)** | *BTS Empire Pvt. Ltd.* | *Oct 2026*
  Review article: "Transplacental Cancer Transmission: Mechanisms, Clinical Evidence, and Maternal-Fetal Outcomes."
- **1st Prize – E-Poster Presentation, Pharma Rx 2K26** | *Vignan Institute of Pharmaceutical Technology, Visakhapatnam* | *Sep 2026*
  "Prompt Looping in Pharmaceutical Research: A Human-in-the-Loop Approach for Empowering Pharmacists," at the 2-Day National Seminar on World Pharmacists Day 2026.
- **Participant & Idea Submitter – Bharatiya Antariksh Hackathon 2026** | *ISRO (powered by Hack2skill)* | *Aug 2026*
  Recognized for active participation and successful idea submission in a national space-technology innovation initiative.

INNOVATION & LEADERSHIP

- Developed and presented startup concept in pharmaceutical formulation
- Led development of healthcare AI solutions in competitive environments
- Demonstrated strong ability in research, technical presentation, and innovation

CERTIFICATIONS

- Molecule to Market Job Simulation — Commercialization and HEOR fundamentals.
- Certifications in Pharmacogenomics, Regulatory Practices, and Ethics focused on personalized medicine, pharma compliance, and clinical research standards.
- Trained through Biopharma Institute, Anthropic, and Amazon Web Services in Pharmacovigilance, AI foundations, healthcare cloud, medical NLP, and generative AI.
- Additional certifications in AI in Pharma and Generative AI focused on healthcare innovation, AI governance, and life sciences technology applications.
